<u>SPECIAL BOUNDARIES</u>				
Barkley Sound	From Aguilar Point, south portion of Barkley Sound north to Howard Point, N.E. portion of Barkley Sound.	White	On both points, as described.	Effective mid May on Commencement of Sockeye net fishery closing off all waters seaward of line to all nets.
Rainey Bay	Inner portion of Barkley Sound.	White	Chup Point to Ecoole.	

COMMERCIAL SALMON FISHING BOUNDARIES - B.C.March, 1975PROTECTION DISTRICT NO. 4Barkley-Nitinat Sub-District (Area 23) (Continued)..FOOTNOTES

- No. 1 The waters of Toquart Bay and Macoah Passage inside or westerly of a line from Harris Point to North Stopper Island thence to St. Ines Island thence westerly to a point on Vancouver Island marked by a white fishing boundary sign. This closes off the named locations to all commercial salmon fishing effective mid May when the Sockeye net season commences.
- No. 2 The waters of Effingham Inlet inside or north westerly of a line between fishing boundaries established on each side of the entrance to the Inlet.
- No. 3 Sarita Bay - Effective mid May on commencement of Sockeye net fishery, boundary in effect from a fishing boundary sign located on the south end of Santa Maria Island north to a boundary sign located on the shore of Sarita Bay approx. .4 miles north west from the mouth of Carnation Creek. This boundary applies until the Sockeye net fishery is completed approx. August 1st. At this time the following boundary applies for the duration of the salmon season - that is, all waters of Sarita Bay lying inside of boundary signs commencing at the south end of Santa Maria Island thence to Hosie Island thence to the south end of Congreve Island.
- No. 4 On commencement of the mid-May Sockeye net fishery the waters of the Alberni Inlet are closed - usually north of a line from Pocahontas Point to a point directly across the Alberni Inlet where a boundary sign is established. As the sockeye net season progresses, this boundary is subject to some movement - up or down (seaward) the Inlet as the case may be. If this boundary is extended north to Hocking Point then the normal stream mouth and Bay boundaries in the Inlet apply - i.e. the waters of Nahmint Bay protected by signs established at the outer extremities of the Bay.

COMMERCIAL SALMON FISHING BOUNDARIES - B.C.

March, 1975

PROTECTION DISTRICT NO. 3

Squamish-Burrard Inlet Sub-District (Area 28)

All the waters of Howe Sound, Indian Arm and Burrard Inlet are closed to all commercial salmon fishing as per the B.C. Fishery Regulations, i.e. northerly and easterly of a straight line from Gower Point to the most southerly point of Popham Island, thence in a straight line to the most southerly point of Worlcombe Island, thence in a straight line to Cape Roger Curtis, thence in a southeasterly direction to Point Grey Fairway Gas and Bell Buoy, thence in a straight line to the most westerly point of Point Grey.

In the event that the above closure is wholly or partially varied to permit commercial salmon fishing, the following boundaries will be in effect, subject to revision:

<u>Name of Stream</u>	<u>Approx. Location of Stream</u>	<u>Colour of Bnd. Signs Establ.</u>	<u>Approximate Location of Boundary Signs</u>	<u>Remarks</u>
Capilano River	Burrard Inlet	White	End of 14th Street Wharf, West Vancouver.	
Horseshoe Bay	East Howe Sound	White	Whytecliff Point to south end of Bowyer Island, thence due (mag.) to the mainland.	All commercial fishing.
Indian River	Head of Indian Arm, North Arm of Burrard Inlet	White	South end of Croker Island, and on each side of Indian Arm, approx. 3 miles from mouth of stream.	
McNab Creek	West Howe Sound	White	1/2 mile each side of creek.	
No stream - Deep Cove sanctuary	North Arm of Burrard Inlet	White	Either side of entrance to Cove.	
Robert's Creek	South end of Sechelt Peninsula	Orange	1/2 mile each side of creek.	
Squamish River	Head of Howe Sound	White	1/2 mile from mouth of river.	
Wilson and Chapman (Mission) Creeks	South end of Sechelt Peninsula	Orange	1/2 mile west of Chapman 1/2 mile east of Wilson
