 - 10 BARRAGES
 - 11 SLAMS
 - 12 SLAMS (COMBINATION)
 - 13 WINDMILLS
 - 14 LIMITED (SUSPECTED)
 - 15 TANK

This map was produced by the Maritime Resource Management Service, using its GEO-BASED SYSTEM: an automated geographic information system used to create data bases and to manipulate and plot information for numerous natural resource applications. The map is a product of the GEO-BASED SYSTEM and a conventional photo-mechanical process.

The fisheries information was extracted from a marine data base gathered by A.C.R.I.C. on behalf of the federal Department of Fisheries & Oceans, Parks Canada and the New Brunswick Department of Fisheries, encompassing the Passamaquoddy region of the Bay of Fundy.

Additional information is available from:
