

Figure 18: Time series of less than 0 deg. C temperatures anywhere in the water column.

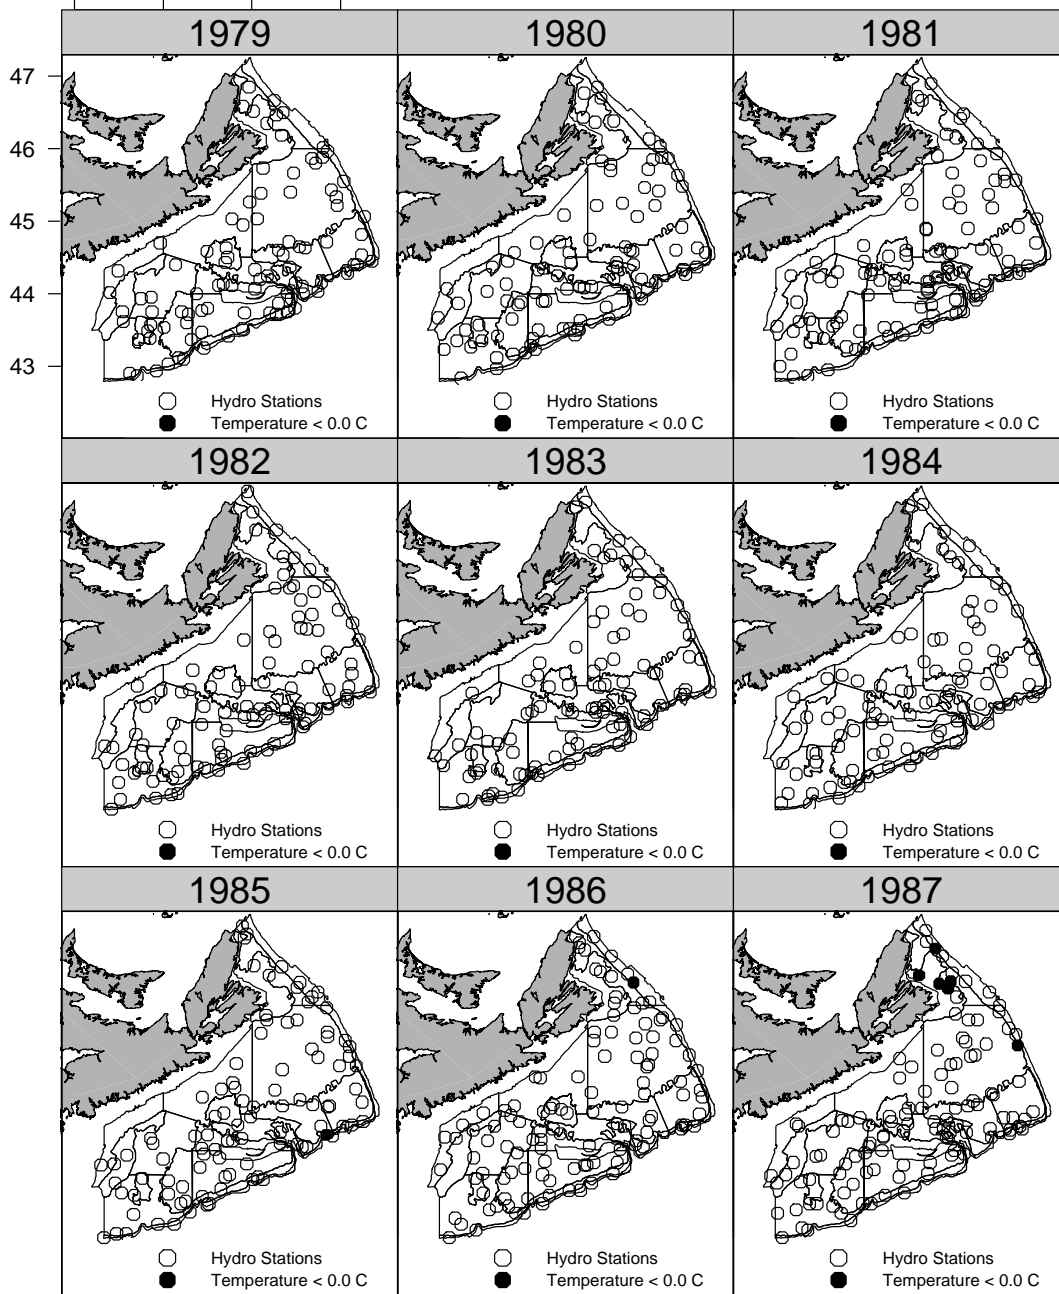

Figure 18: continued

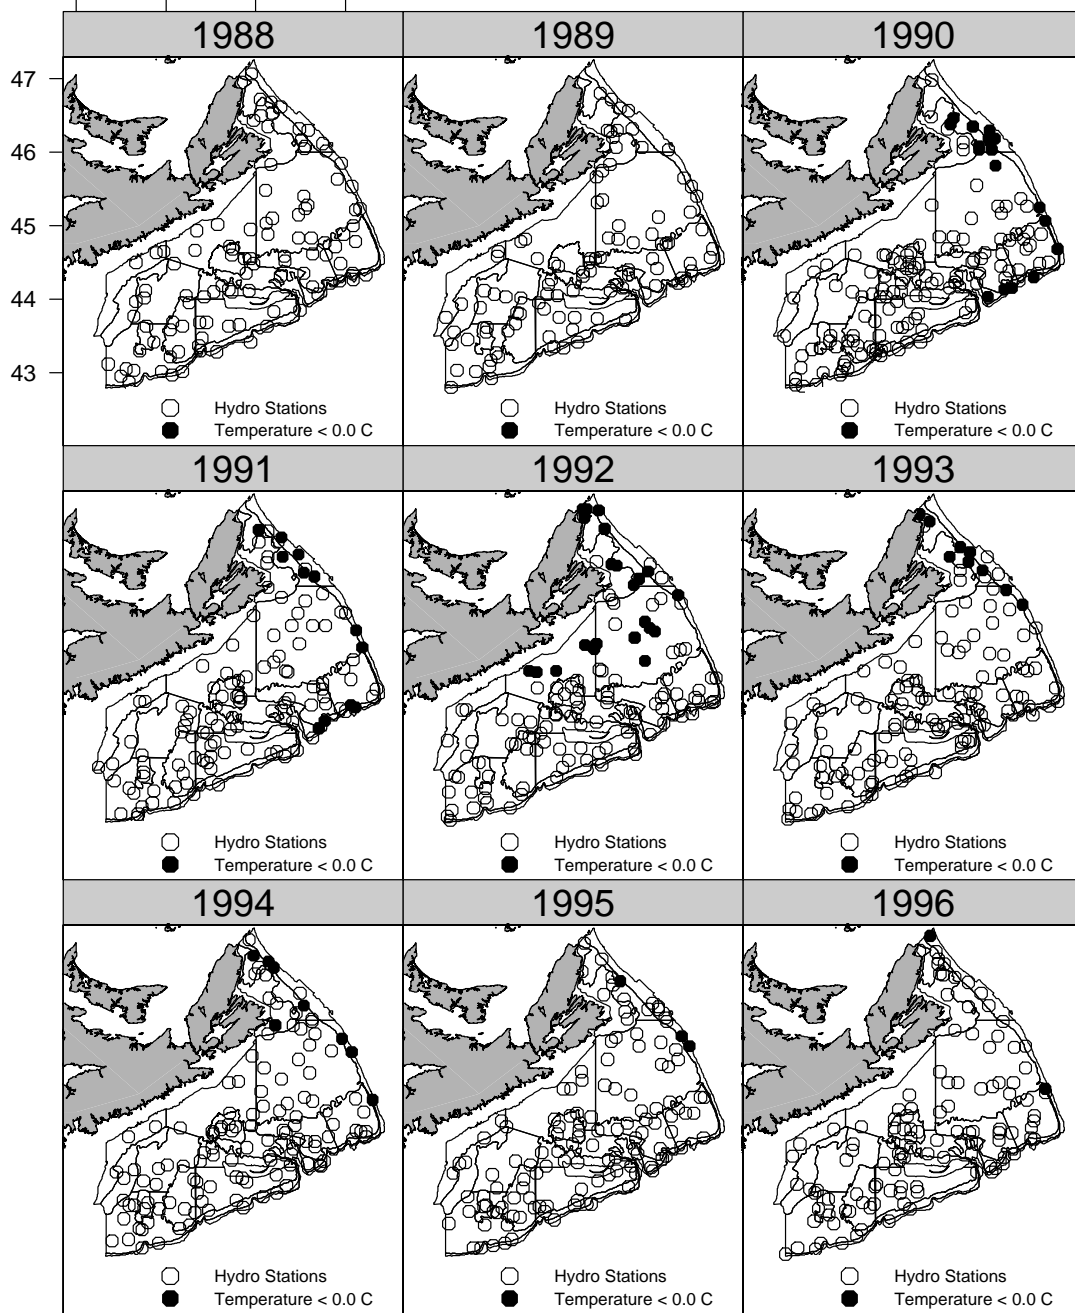

Figure 18: continued

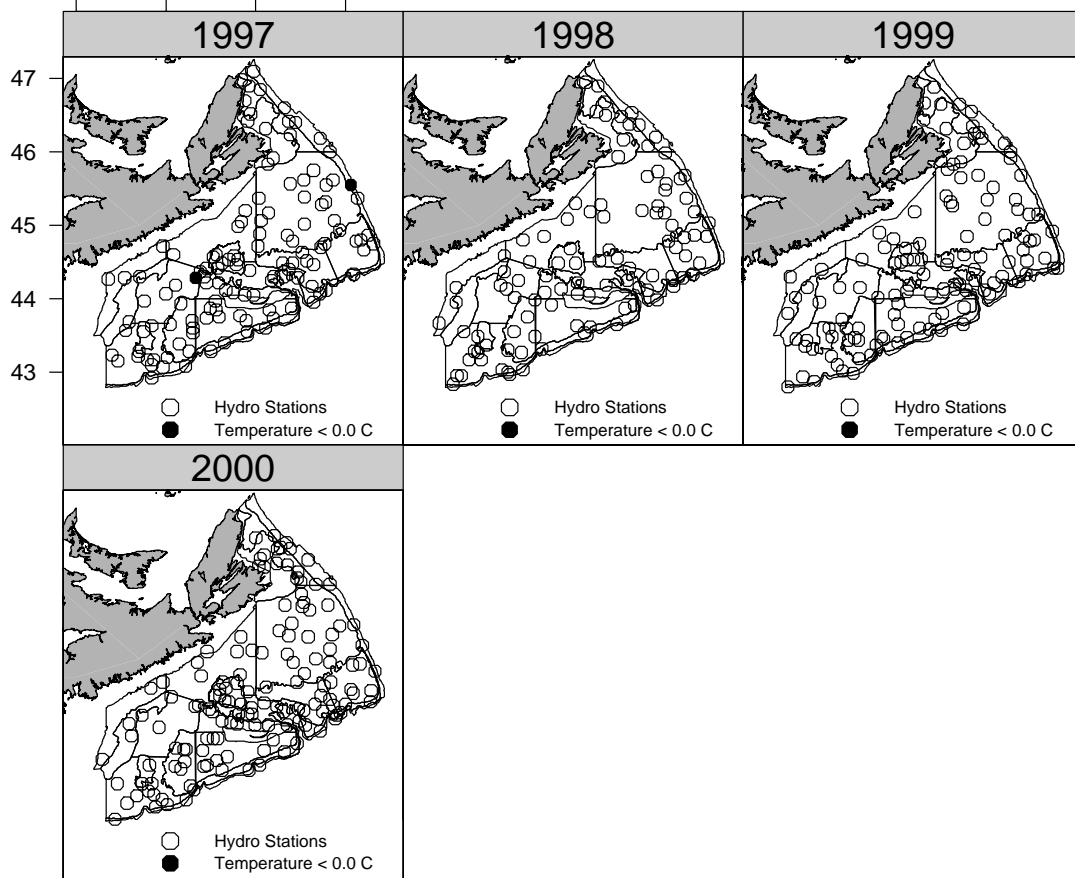

Figure 18: continued

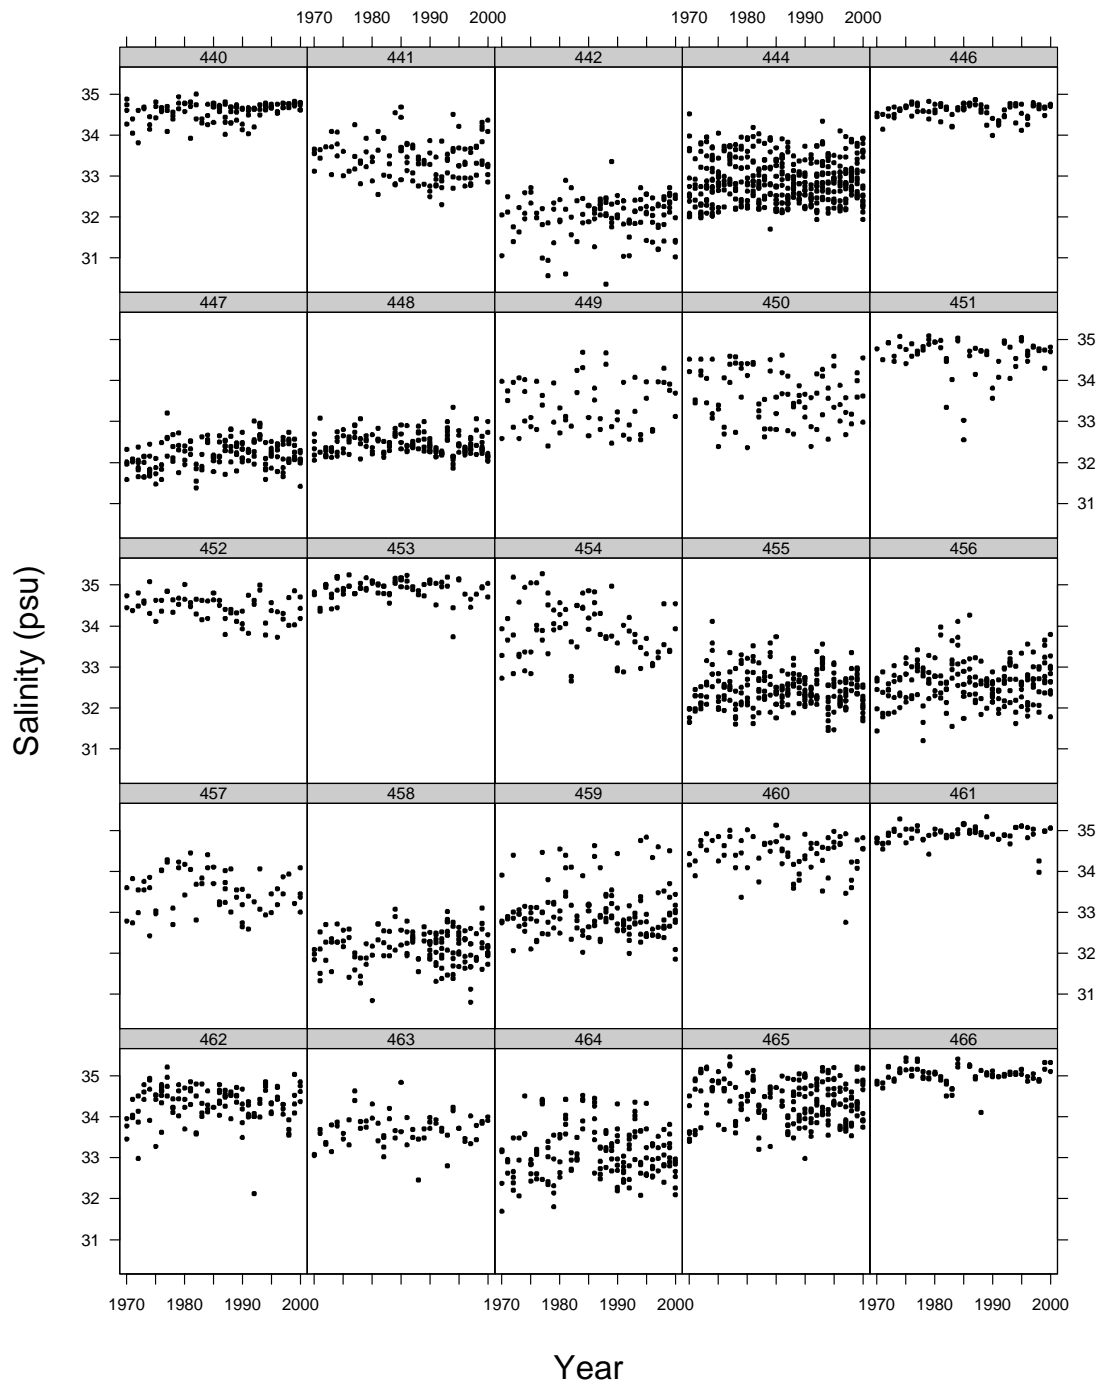

Figure 19: Time series of near-bottom salinities for 4VW summer surveys. Numbers in strip panels indicate strata locations. Closed circles represent one sampled station.

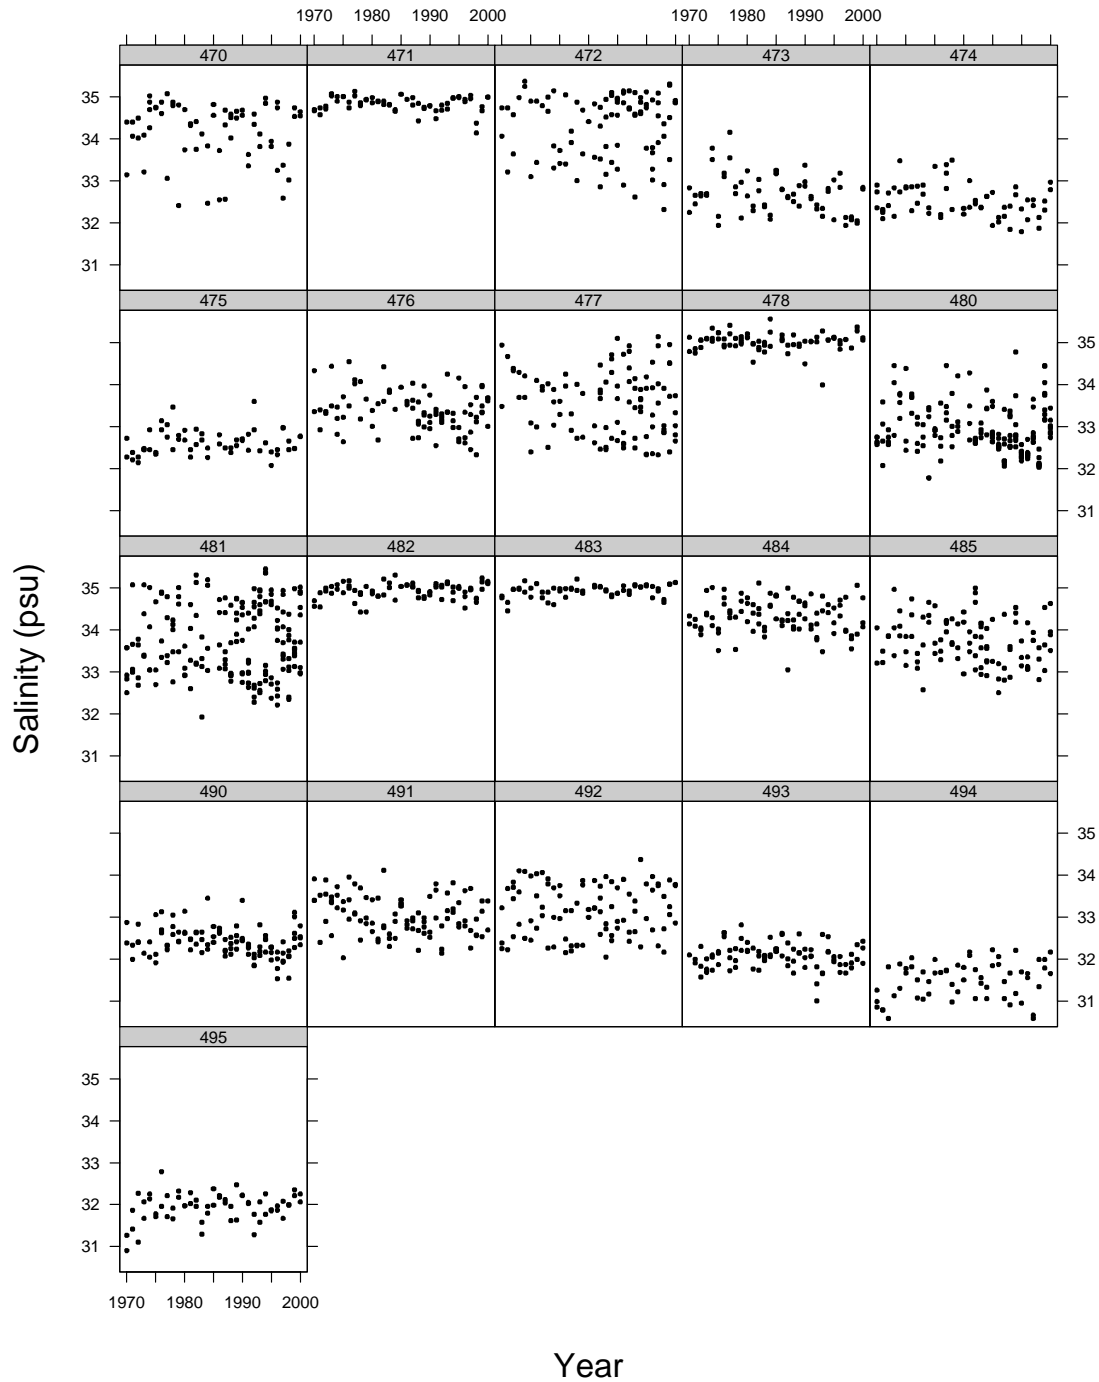

Figure 20: Time series of near-bottom salinities for 4X summer surveys. Numbers in strip panels indicate strata locations. Closed circles represent one sampled station.

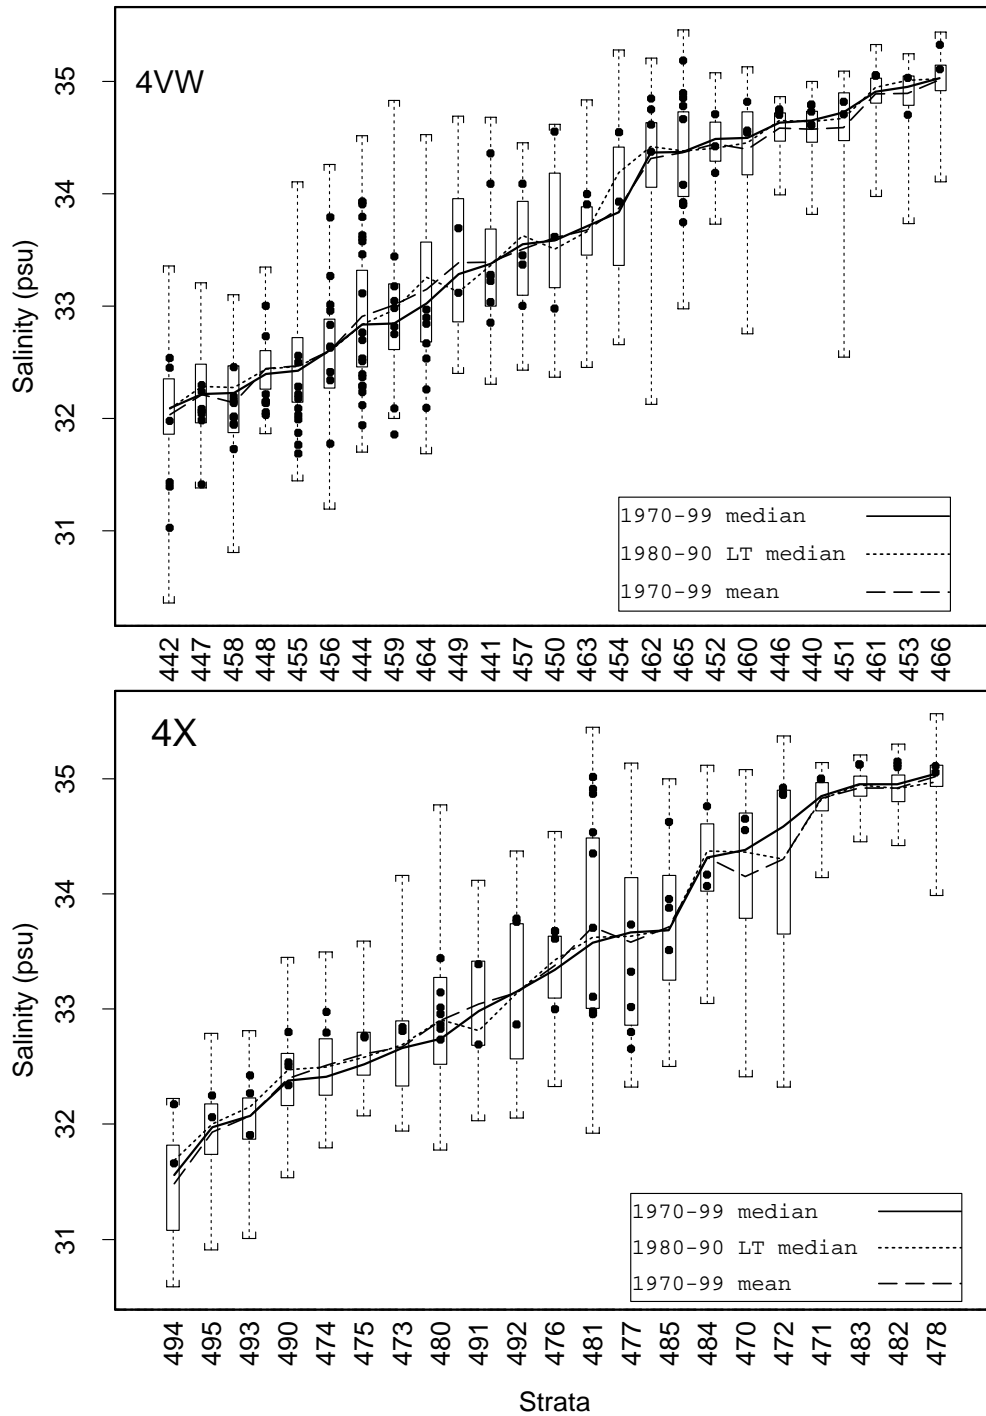

Figure 21: Box and Whisker plots of strata specific near-bottom water salinities for summer 4VWX surveys. Solid circles are observed salinity data for 2000.

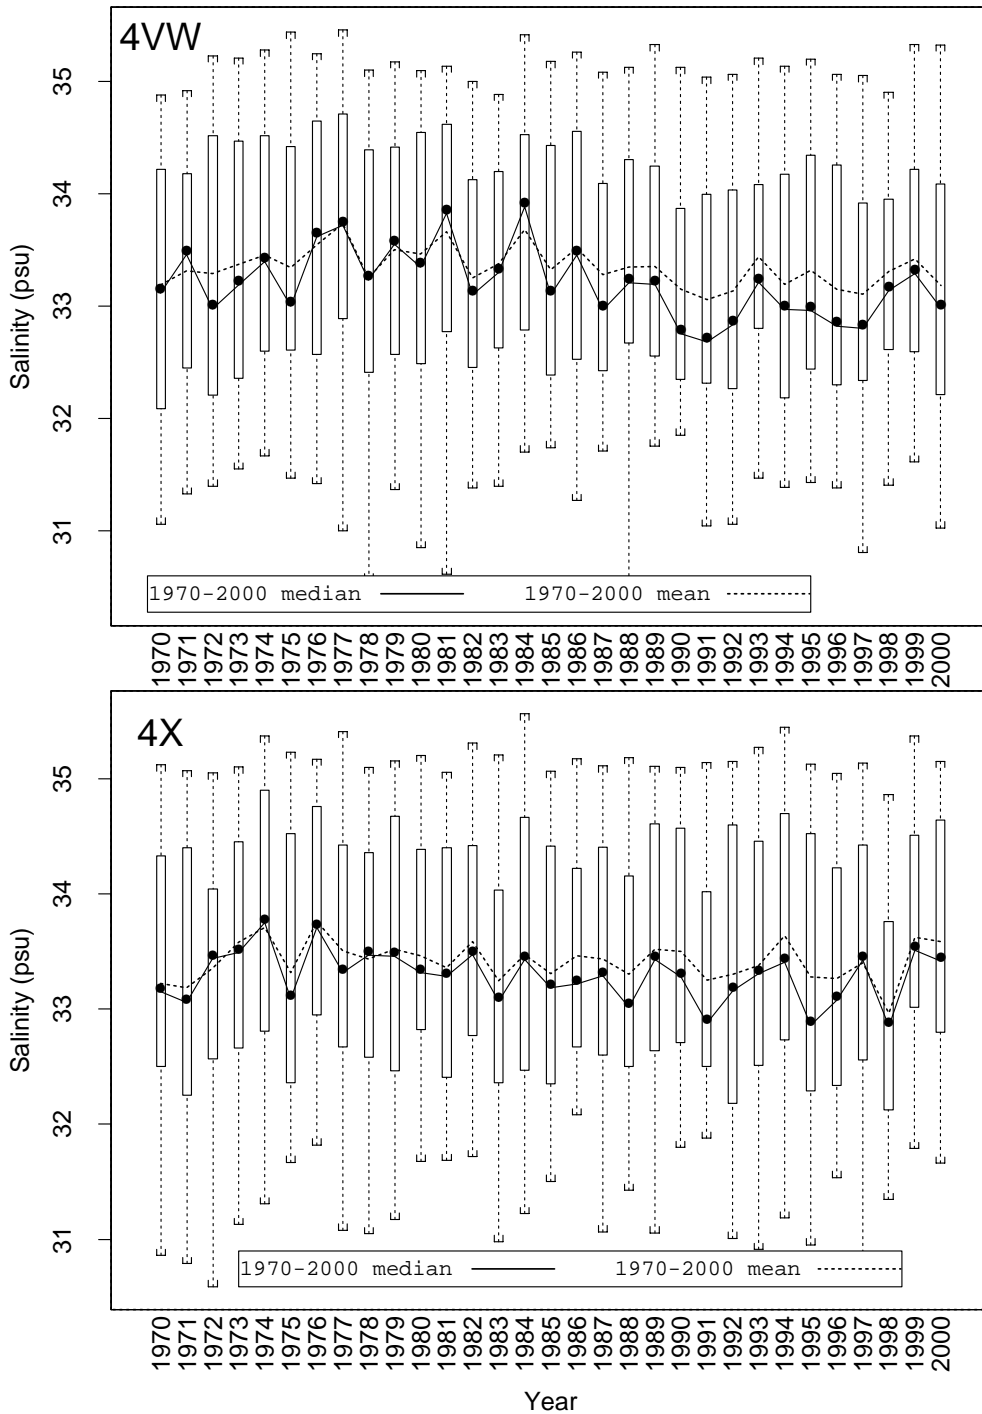

Figure 22: Box and Whisker time series plots of near-bottom water salinities for summer 4VWX surveys.
