Édlánet'é, ᑕᓐᓴᓴᑦ (Tunngasugit), aaqana, hello!

## Have you heard?

Arctic Region has joined [Fieldnotes](#)! This web mapping application is an annual compendium of science field research and monitoring conducted by Fisheries and Oceans Canada (DFO) and collaborators.

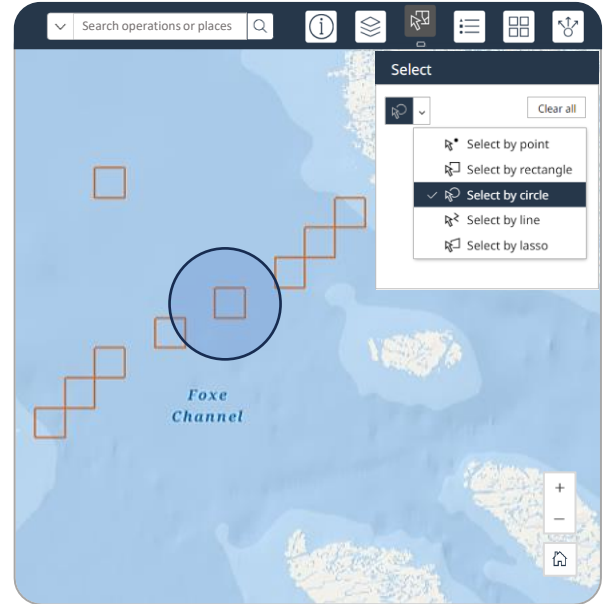

Field work takes place in the Pacific, Arctic and Atlantic Oceans, as well as the freshwater bodies of participating DFO [Regions](#): Pacific, Arctic, Ontario and Prairie, Maritimes, and Gulf.

## Web map features

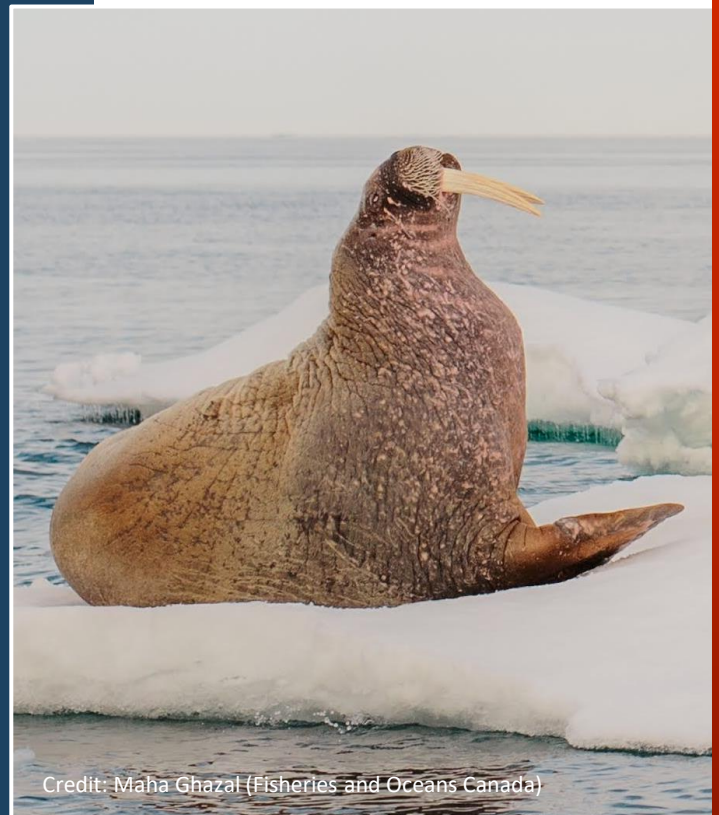

Users can access the following interactive map features in the 2026-27 edition of *Fieldnotes*:

- Learn about field operations by:
  - [clicking](#) an orange square
  - searching for [keywords](#)
  - [filtering](#) by environment type
  - [selecting](#) an area of interest
  - browsing the [list panel](#) or [table](#)
- [Share links](#) to selected operations
- [Export text](#) summaries to Excel
- Overlay [reference information](#) such as Indigenous communities or watersheds

Enjoy your *Fieldnotes* explorations!
