Fisheries and Marine Service Data Reports

These reports provide a medium for filing and archiving data compilations where little or no analysis is included. Such compilations commonly will have been prepared in support of other journal publications or reports. The subject matter of Data Reports reflects the broad interests and policies of the Fisheries and Marine Service, namely, fisheries management, technology and development, ocean sciences and aquatic environments relevant to Canada.

Numbers 1-25 in this series were issued as Fisheries and Marine Service Data Records by the Pacific Biological Station, Nanaimo, B.C. The series name was changed with report number 26.

Data Reports are not intended for general distribution and the contents must not be referred to in other publications without prior written clearance from the issuing establishment. The correct citation appears above the abstract of each report.

Service des pêches et des sciences de la mer Rapports statistiques

Ces rapports servent de base à la compilation des données de classement et d'archives pour lesquelles il y a peu ou point d'analyse. Cette compilation aura d'ordinaire été préparée pour appuyer d'autres publications ou rapports. Les sujets des Rapports statistiques reflètent la vaste gamme des intérêts et politiques du Service des pêches et de la mer, notamment gestion des pêches, techniques et développement, sciences océaniques et environnements aquatiques, au Canada.

Les numéros 1-25 de cette série ont été publiés à titre de Records statistiques, Service des pêches et de la mer, par la Station biologique du Pacifique, Nanaimo (C.-B.). Le nom de la série a été modifié à partir du numéro 26.

Les Rapports statistiques ne sont pas préparés pour une vaste distribution et leur contenu ne doit pas être mentionné dans une publication sans autorisation écrite préalable de l'établissement auteur. Le titre exact paraît au haut du résumé de chaque rapport.

ABSTRACT

Ketchen, K. S. 1977. Catch statistics of the Canadian and United States trawl fisheries off the northern Washington and southern Vancouver Island coasts by sub-areas of PMFC Areas 3B and 3C, 1963-1975. Fish. Mar. Serv. Data Rep. 36: 41 p.

Published comparable statistics of the Canadian and United States fisheries for groundfish in the Vancouver Island area are recorded by Pacific Marine Fishery Commission statistical areas. This report was prepared to show within-area catches for the purpose of Canada-U.S.A. negotiations respecting the lateral boundary dividing the two countries' zones of extended jurisdiction.

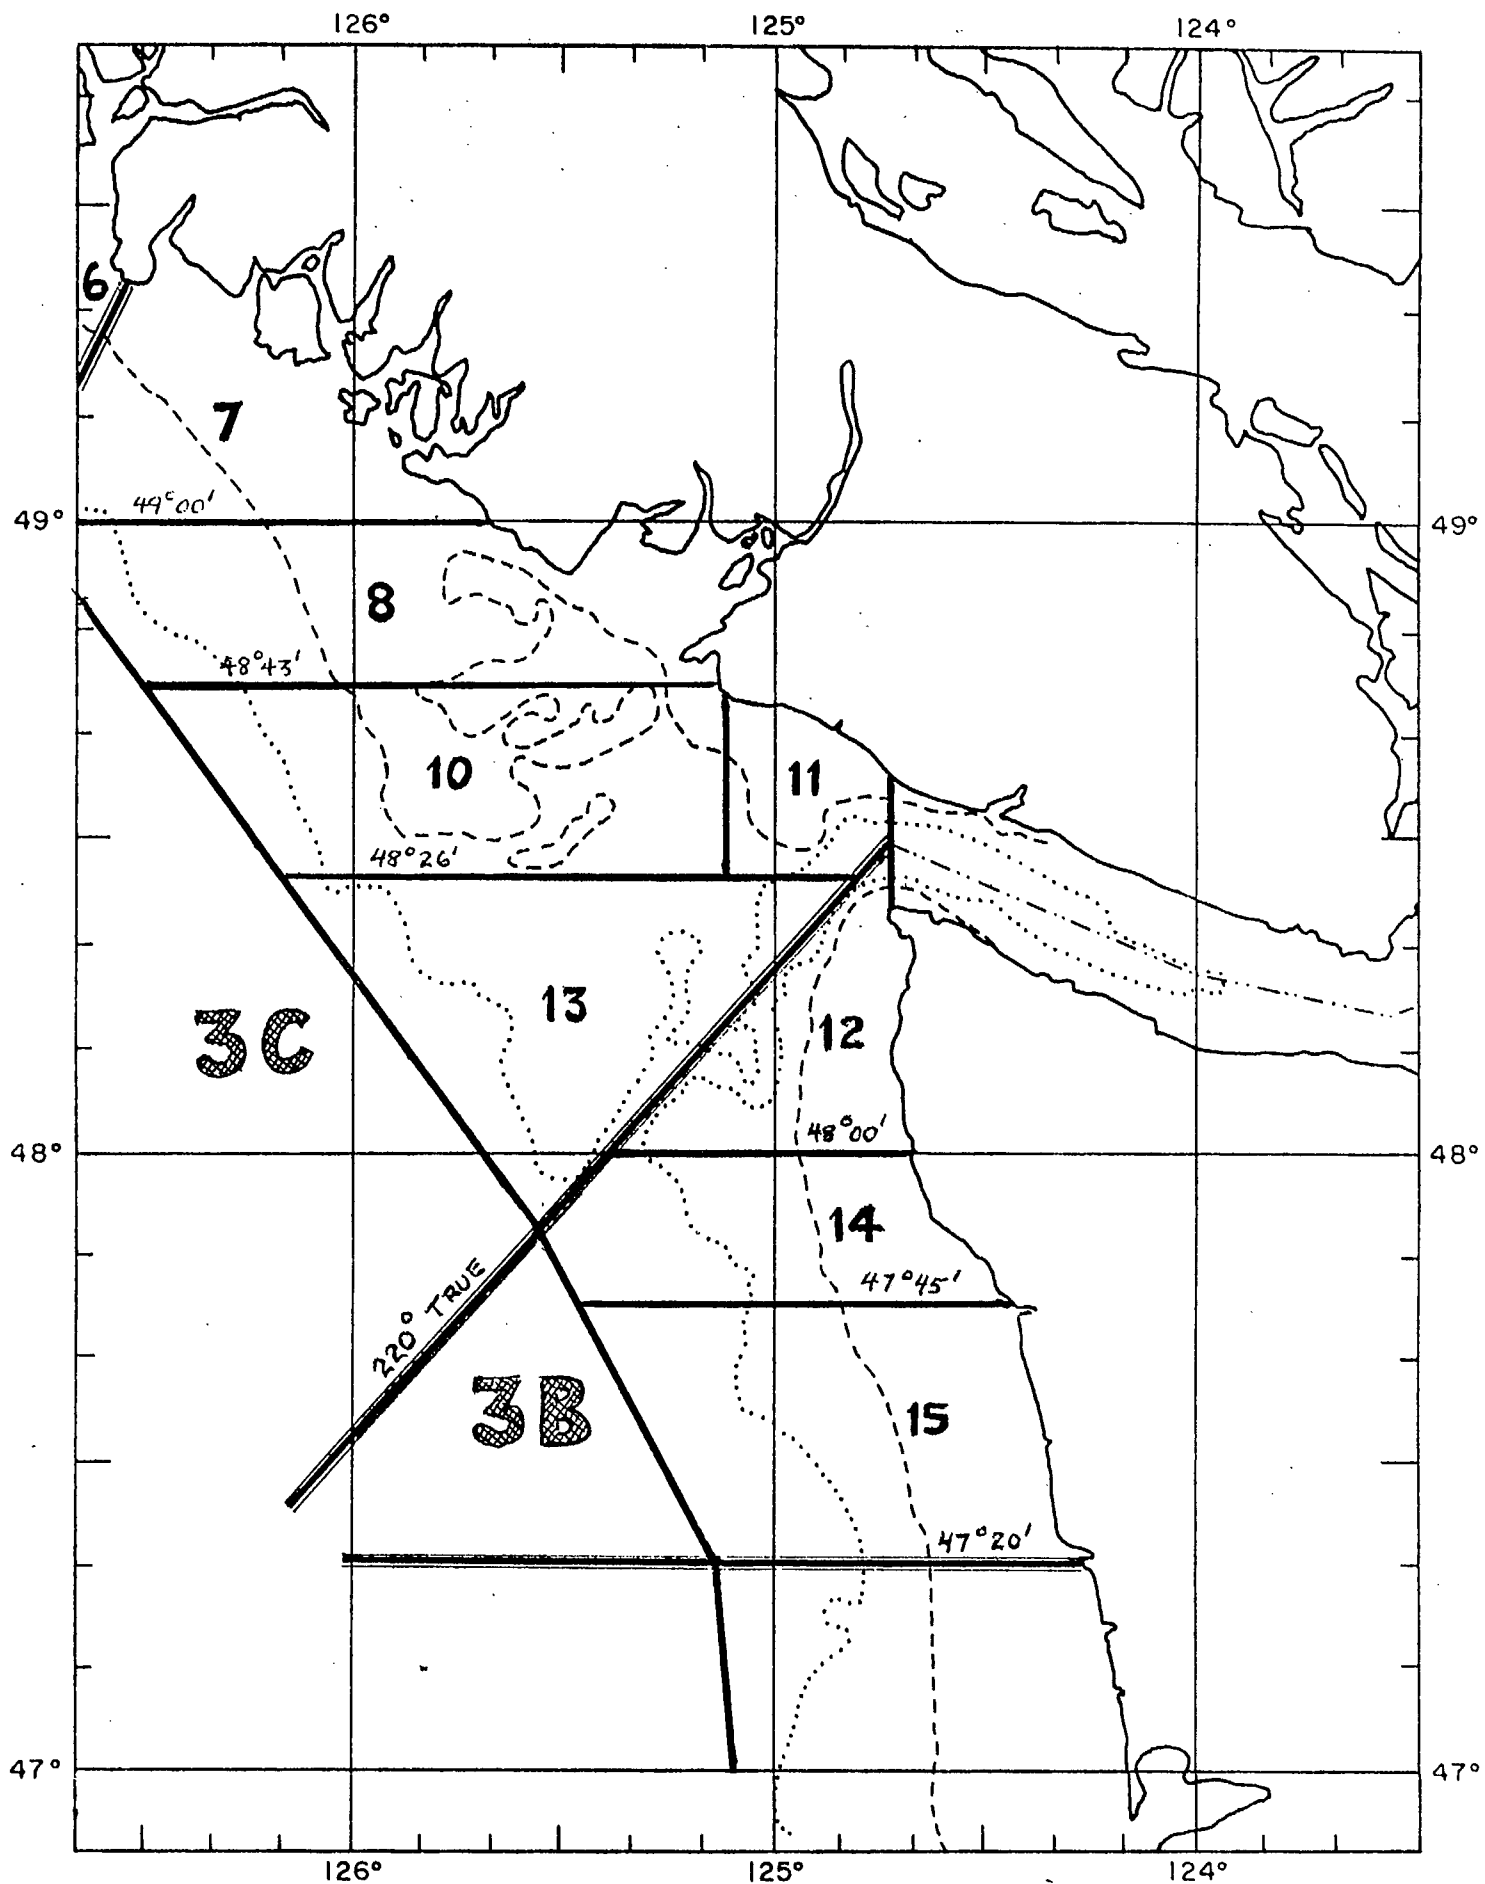

Fig. 1. Washington State statistical sub-areas of PMFC Areas 3B and 3C in the vicinity of the southern boundary area.

Canadian and United States trawl catch in waters off the southwest coast of Vancouver Island and northwest coast of Washington in 1963. (Landings in thousands of pounds by statistical areas of the Washington State Department of Fisheries.)
